

# Flexiva

joy pvc

- Made of PVC film and high tensile steel wire for heating ventilation and gas transition systems.
- Suitable for low and medium pressure atmosphere.
- High resistant to physical strokes and tears.
- Air tight .
- Flame retardant.
- Ability to press and twist.
- No cause of poisonous gas in case of fire.

#### Technical Specifications :

Material	: 70 – 150 mic. thickness PVC
----------	-------------------------------

Diameter Range	: Ø 52 mm – Ø 1000 mm
----------------	-----------------------

Temperature Range	: -30 °C / + 80 °C
-------------------	--------------------

Air Velocity	: Max. 30 m/sec.
--------------	------------------

Operating Pressure	: Max. 2500 Pa.
--------------------	-----------------

Standard offer type	: Package / 10 m.
---------------------	-------------------

#### Insulated Joy

Insulation	: 25 mm – 100 mm thickness and 12–16 kg / m <sup>3</sup> density glasswool
------------	--

Jacket	: PVC / AI / PE
--------	-----------------
